

WORTHINGTON
ENTERPRISES

THE SKY'S THE LIMIT...

WITH **COSMOS**
for stationary H₂, CNG, and
Industrial Gas applications

A COSMOS OF POSSIBILITIES

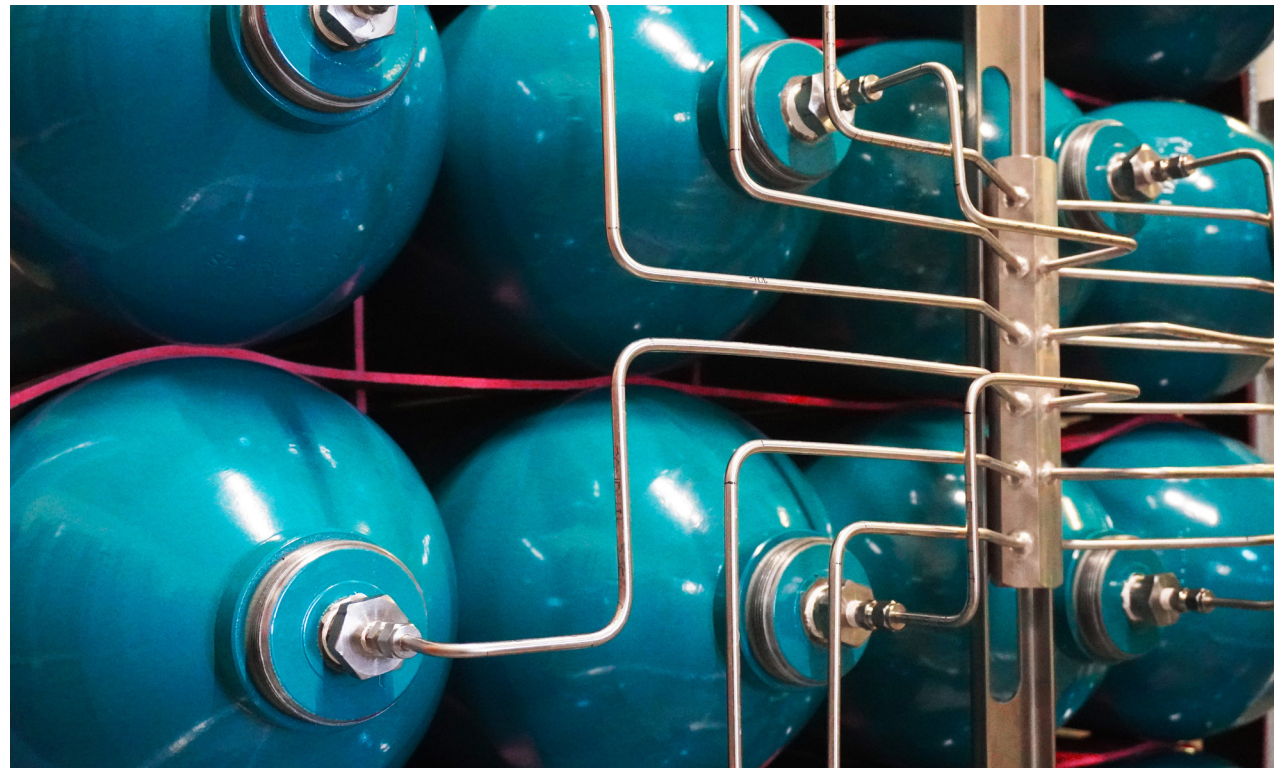

WHEREVER YOU FIND H2, CNG, AND
INDUSTRIAL GASES, YOU FIND US, TOO...

COSMOS

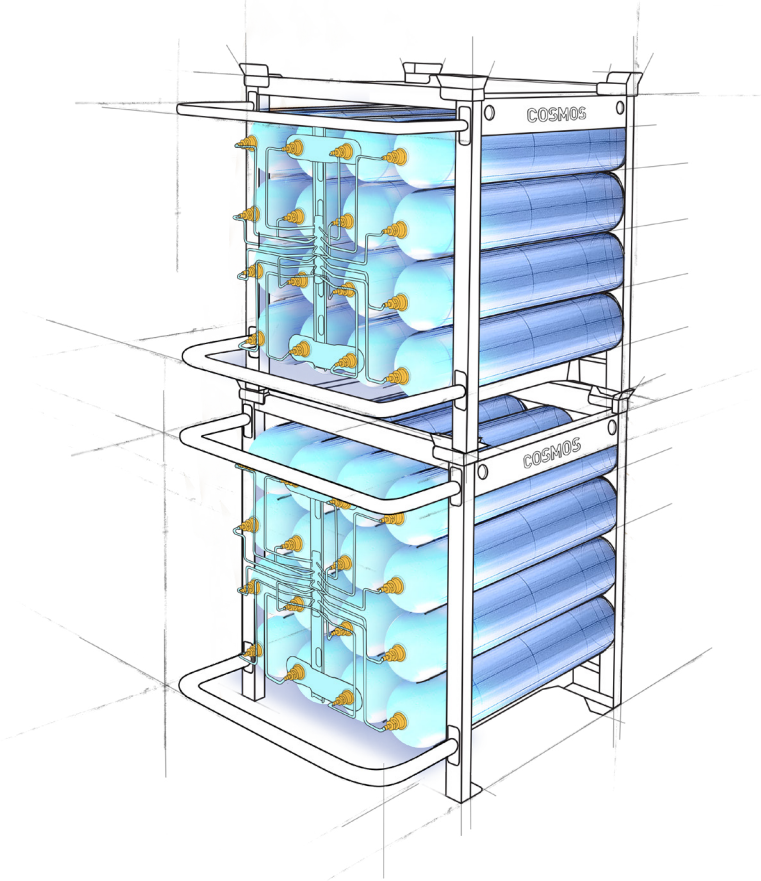

OUR STACKABLE COSMOS BUNDLE GROW WITH THE SIZE OF YOUR H₂-, CNG-, OR INDUSTRIAL GASES-FUELED OPERATIONS.

Because the COSMOS bundle is stackable and comes in working pressures from 210-550 BAR, you can double, triple, or even quadruple the amount of gas you store on the same footprint.

WHEN YOU PARTNER WITH WORTHINGTON, YOU GET:

- » Broadest design and manufacturing experience with mobile + stationary applications.
- » Single-supplier advantage: from cylinders to gas-street components to fully-installed piping – we deliver.
- » Customized configurations that fit your operational footprint.
- » Our stationary COSMOS bundles with METAL Type 1 cylinders give you the flexibility to store H₂, CNG, and Industrial Gases wherever you need them; and can be easily refueled by Worthington's mobile COSMOS containers.

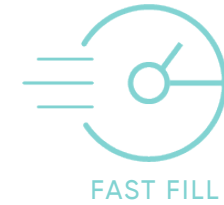

COSMOS

PRODUCT RANGE

550 BAR H2 VARIANTS

MAX. ALLOWABLE PRESSURE	CYLINDERS Ø267*	HYDROGEN
550 BAR	16 x 50 L	28 KG
550 BAR	24 x 50 L	42 KG
550 BAR	30 x 50 L	52 KG
550 BAR	36 x 50 L	63 KG

330 BAR H2 VARIANTS

MAX. ALLOWABLE PRESSURE	CYLINDERS Ø267*	HYDROGEN
330 BAR	16 x 80 L	29 KG
330 BAR	24 x 80 L	44 KG
330 BAR	30 x 80 L	55 KG
330 BAR	36 x 80 L	67 KG

210 BAR H2 VARIANTS

MAX. ALLOWABLE PRESSURE	CYLINDERS Ø267*	HYDROGEN
210 BAR	16 x 80 L 16 x 87 L	20 KG 21 KG
210 BAR	24 x 80 L 24 x 87 L	30 KG 32 KG
210 BAR	30 x 80 L 30 x 87 L	37 KG 41 KG
210 BAR	36 x 80 L 36 x 87 L	45 KG 49 KG

BENEFITS OF WORKING WITH WORTHINGTON:

» BEST IN CLASS PRODUCTS

Our stationary COSMOS bundles, made with METAL Type 1 steel cylinders provide a COSMOS of possibilities for your H₂, CNG, and Industrial Gas applications. Our engineers design solutions to maximize safety and minimize weight.

» COST EFFICIENCY

Our products lower your total cost of ownership (TCO): Your fuel costs drop along with the CO₂ emissions of your logistics.

» PERSONALIZATION

Worthington designers and engineers build the container that suits your requirements.

» DIGITIZATION

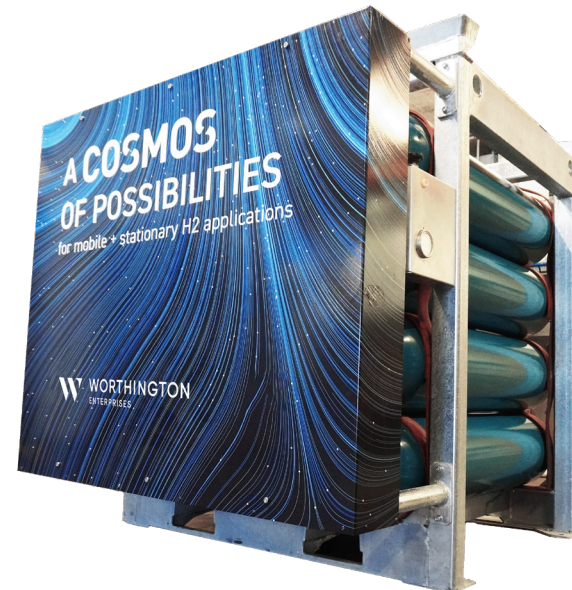

Our Digitization department consults you on IoT functions and offers our SIGMA Digital Services Platform. SIGMA monitors gas content, sends push alerts when levels are low, and geolocates containers.

» CUSTOMER SERVICE

For us, service does not end after the sale! With our after-sales maintenance and technical services, we make using your product a pleasure for you.

» FOLLOW-UP SUPPORT + MAINTENANCE

We let you enjoy the convenience of having all retesting and refurbishment in house.

WANT TO SHOWCASE YOUR BRAND?

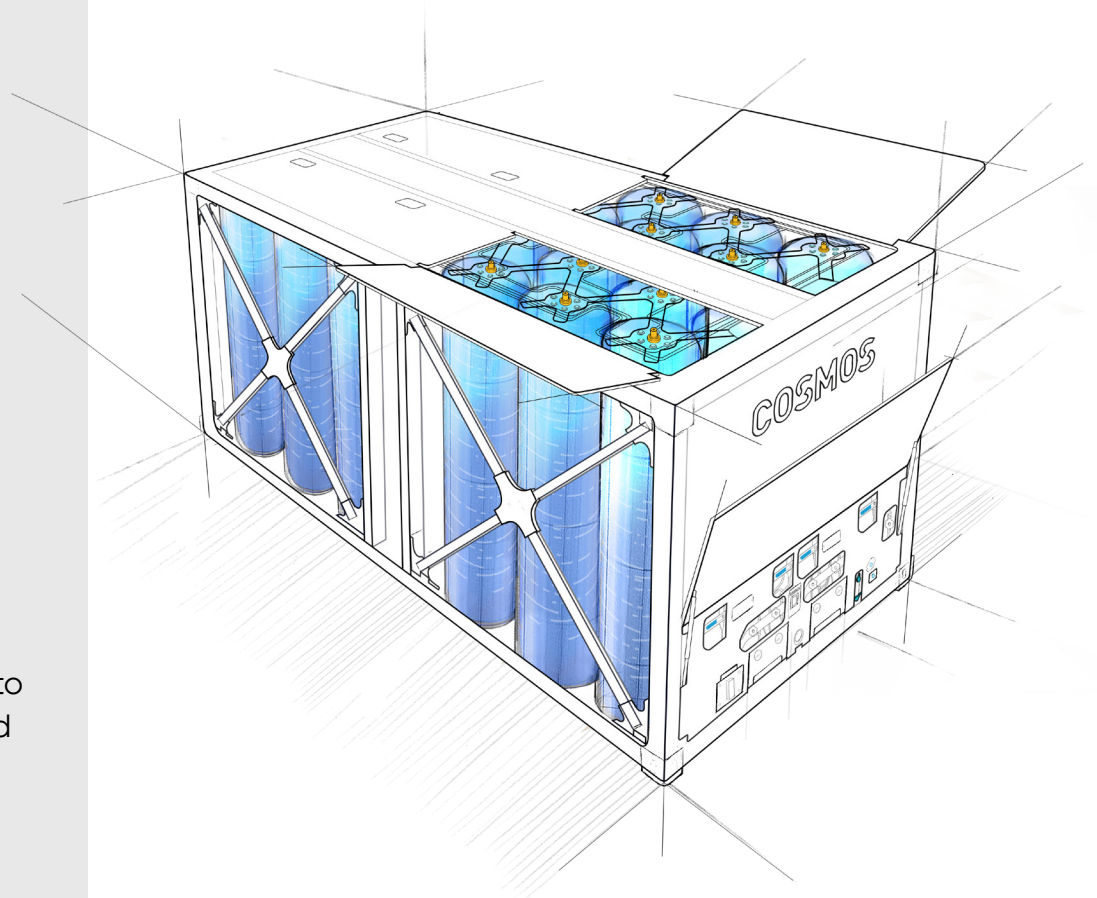

Work with our Marketing Department to differentiate your COSMOS bundle with your company's customized brand message – or the branding of your end user!

YOU NEED TO REFUEL YOUR STATIONARY COSMOS?

Our COSMOS containers, made with COMET Type 3 and FORTIS Type 4 cylinders, move H₂ + CNG: from generation - to transport - to use (with your stationary + stackable COSMOS). So if you need to store and transport large amounts of hydrogen or natural gas, and ensure that gas purity remains at the highest levels, our 10-, 20-, 30- and 40-foot containers get the job done.

Our COSMOS containers provide a COSMOS of value and possibilities for your H₂ + CNG applications. Our engineers design solutions to maximize safety and minimize weight.

for compressed H₂ + CNG
Transport + Storage solutions

DIGITAL SOLUTIONS

MONITOR, LOCATE, ALERT

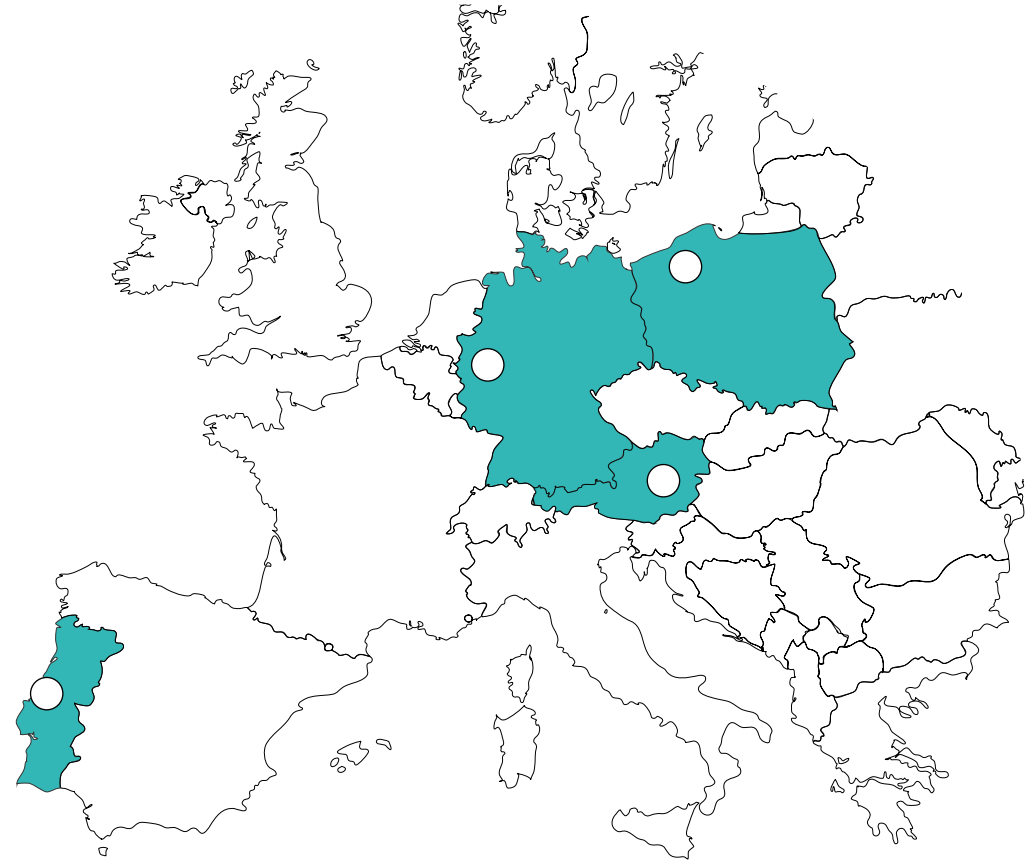

In addition to the SIGMA Digital Services Platform, we are launching several new digital solutions to help our sustainable mobility, industrial gas, building products and LPG customers acquire more insights and efficiencies in their operations and logistics.

WORTHINGTON ENTERPRISES

Worthington Enterprises' European facilities comprise the largest pressure-vessel design and manufacturing network in Europe. Over 1,300 employees work at facilities in Austria, Poland, Portugal, and Germany. With the lightest composite and steel low- and high-pressure cylinders available, Worthington Europe designs and makes solutions for the hydrogen economy + global energy transition, industrial gases, fire rescue + suppression, and much more.

Worthington Enterprises (NYSE: WOR) is a designer and manufacturer of market-leading brands that help enable people to live safer, healthier and more expressive lives. Worthington Enterprises operates with three segments: Building Products, Consumer Products and Sustainable Energy Solutions. Worthington's emphasis on innovation and transformation extends to building products including water systems, heating and cooling solutions, architectural and acoustical grid ceilings and metal framing and accessories, and consumer products in tools, outdoor living and celebrations categories sold under brand names Coleman®, Bernzomatic®, Balloon Time®, Level5 Tools®, Mag Torch®, Well-X-Trol®, General®, Garden-Weasel®, Pactool International® and Hawkeye™. Worthington Enterprises also serves the growing global hydrogen ecosystem through on-board fueling systems and gas containment solutions.
